GOVERNMENT OF INDIA.

FINANCE DEPARTMENT (MILITARY FI-
NANCE).

Simla, the 25th October 1907.

RESOLUTION.

In the Resolutions noted on the margin, it was prescribed that regimental funds of British and Native units might be lodged with private banks—including, for this purpose, firms which conduct banking business—subject to the condition that in each case the bank should furnish security (in Government Promissory notes, cash or Port Trust or Municipal bonds or debentures) to an amount sufficient to cover the aggregate amount of regimental funds held by the bank.

ber 1904.

1905.

Finance Department (Mili-
tary Finance) No. 63-F. (ii),
dated 28th April 1906.

2. The Governor-General in Council is now pleased to lay down the accompanying rules, which state particularly:—

- (i) the conditions under which regimental funds of units may be deposited with a private bank, and

- (ii) the form of agreement to be entered into between such bank and the Controller of Military Accounts concerned, providing in favour of the latter a lien on securities lodged with him in respect of regimental funds deposited by units with that bank.

These rules will be published in the form of an Appendix to Army Regulations, India, Volume II.

3. The Governor-General in Council further directs that it shall not be permissible for the Officer Commanding a unit to give to a bank thus employed by him any general power of attorney or other authority which would enable the bank to forthwith sell securities deposited with the bank which are the property of a regimental fund : but this shall not preclude the bank from carrying out the sale of such securities, in the ordinary course of business, if expressly so instructed in each case by the Officer Commanding the unit.

4. All securities deposited with a Controller for the above purpose will in future be retained by him in custody ; and the return of securities no longer required should in each instance be carried out by him promptly.

Ordered that this Resolution be communicated to the Army Department, the Comptroller and Auditor-General, the Military Accountant-General and all Controllers of Military Accounts.

Joint Secretary to the Government of India.

Appendix to Army Regulations, India, Volume II.

Appendix XX.

(Referred to in paragraph 174.)

Banking of regimental funds.

Subject to the following conditions and procedure, the officer commanding a British or Native unit or a volunteer corps may at his discretion lodge his regimental funds with any private Bank or Firm of good standing that may be selected by him.

[By a private bank or firm is here meant any banking concern other than a Government Treasury or the Presidency Banks of Bengal, Madras and Bombay, or their branches; and the term "bank" is hereinafter used to include also any firm which carries on banking business. Shroffs employed in batteries of Royal Artillery are not included in the term "bank" or "firm".]

1. Only regimental, as distinct from public, funds may be so lodged [*vide* Appendix XIX *supra* and the Definitions prefixed to Army Regulations, India, Volume III]; and only such banks may be employed as have entered into an agreement, in the form prescribed in the Appendix to these rules, with the Controller, Military Accounts, who is authorised to receive securities under rule 5.

2. Before making a deposit for the first time, or with a different bank from that previously dealt with, the sanction of the Controller, Military Accounts, of the Circle in which the unit is serving must be obtained. At the time of applying for such sanction the officer commanding will state clearly—

- (a) The name or designation, and the location, of the bank with which he proposes to deposit his regimental funds.
- (b) Whether the bank has agreed to receive the money and is willing to lodge with Government the necessary security.

(c) The nature of the funds, severally, to be deposited, *e.g.*, Mess Band, etc.

(d) The aggregate amount of the deposit, for all the funds together.

The information is necessary to enable the Controller, Military Accounts, concerned to obtain from the bank the necessary security, on receipt of which sanction will be accorded by him.

3. Subsequent deposits with the same bank may be made without further sanction from the Controller, *unless* the initial deposits reported to him (see paragraph 2), or the actual total balance last reported (see paragraph 4), would thereby be increased by Rs. 5,000 or more.

4. Immediately after the 30th June and 31st December of each year the commanding officer will obtain from each bank holding funds belonging to his unit a statement of the total balance at his credit, as it stood on such date; and he will without delay forward the statement to the Controller, Military Accounts, of the Circle in which the unit is serving, after verifying the statement with his regimental accounts and attaching his certificate of its correctness.

The balance shown in the statement must include all money held by the bank, including both the "current (or floating) account" and "fixed deposits," etc.

5. The lodgment of security will follow the account Circle in which the bank concerned is located, *e.g.*, securities to be furnished by a bank or branch bank carrying on business in Calcutta or Bombay will be deposited with the Controller, Military Accounts, Eastern or Western Circle, respectively—who, if the unit be serving say in Rawalpindi, will act on information promptly passed on to him by the Controller of the Northern Circle, see paragraphs 2 to 4.

6. In calculating each half-year the amount of security to be lodged with his office by each bank holding regimental funds, the Controller concerned will add a margin of 10 per cent. to the sum of all the balances with that bank, as reported in the latest half-yearly statements received from

Commanding Officers; such margin being designed to cover ordinary fluctuations connected with regimental deposits which may occur during the ensuing half-year.

He will also, at dates between the half-yearly reports, take further security, if necessary, to cover, with a margin of 10 per cent., fresh deposits sanctioned under rules 2 and 3. On the other hand, if considerable withdrawals occur between the dates of half-yearly reports, which are not likely to be made up again during the same half-year, the Controller shall, on application made by the bank, release a proportionate part of the security in his hands if he is satisfied that the withdrawals made justify this course.

7. The security lodged, whether in Government paper or in cash or in Port Trust or Municipal bonds or debentures, will, under the orders of Government communicated in F. D. (M. F.) No 2195-Accts., dated 25th October 1907, be duly hypothecated in favour of the Controller, Military Accounts, concerned—at whose sole order and disposal the security will thenceforward remain, subject to the proviso that in case of failure of the bank the lien of the Controller upon the security deposited shall extend only to the aggregate amount of regimental funds then actually held by the bank. The Controller will retain the securities in his own custody, and realise and pay to the bank the interest hereon as it becomes due.

In cases where a bank desires to tender the security in cash, instead of in promissory notes or Port Trust or Municipal bonds or debentures, the cash should be deposited in a Presidency bank or one of its branches and the bank deposit receipt should be forwarded to the Controller by whom it will be kept in safe custody.

8. The responsibility of the Controller, Military Accounts, is limited to the duties above indicated. He is not concerned in detailed work connected with regimental funds, such as settling the rate of interest to be allowed on deposits, or seeing that the interest agreed upon is duly credited; arranging for transfer of money from "floating account" to "fixed deposit" or *vice versa*; checking the amounts paid into, or withdrawn from, accounts; or dealing with points in dispute between depositors and banks. Such matters appertain solely to the interior management

of the funds and remain to be settled in direct communication between the officer commanding the unit and the bank concerned.

Note.—It is to be clearly understood that all deposits of regimental funds with a private bank or firm are made, and remain, at the personal responsibility of the commanding officer. The rules and procedure above stated have been laid down for the convenience and benefit of corps; to make it possible for them to earn interest on their regimental monies, while at the same time safeguarding the funds and the officer administering them as far as practicable. The rules in no way imply that the commanding officer is relieved of the responsibility which rests upon him to take every precaution for the safety of the regimental funds entrusted to his care; nor that Government will recoup loss arising from the failure of the bank or firm selected, or from other cause should the security deposited prove insufficient. It must also be borne in mind that depositing officers will be solely responsible for any loss which may result from delay in the submission of their half-yearly reports.

INDIA ARMY ORDERS

BY

HIS EXCELLENCY THE COMMANDER-IN-CHIEF
IN INDIA.

Army Head Quarters, Simla, the 30th March 1908.

167. The London Gazette of the 10th March 1908 was received at Army Head Quarters on the 30th March 1908. 167
30th M
1908.

168. Appointments.—The Commander-in-Chief in India is pleased to make the following appointments :—

Divisional Staff.—Colonel C. T. Robinson, Royal Artillery, to be an Assistant Adjutant General, 3rd (Lahore) Division, *vice* Colonel H. S. FitzGerald, C.B., British Service, vacated. Dated 29th February 1908.

Royal Army Medical Corps.—The appointment of Captain R. W. Clements as a specialist in the prevention of disease while in charge of the Brigade laboratory at Secunderabad from the 7th January to the 9th February 1908 inclusive is approved.

169. Queen Alexandra's Military Nursing Service for India. Appointment.—Miss Edith Osborne Marshall is admitted to the service in the grade of Nursing Sister, with effect from the 22nd January 1908.

(This cancels that portion of India Army Order No. 66 of 10th February 1908 relating to Miss Edith Osborne Marshall.)

170. Leave.—The undermentioned officers are granted leave out of India :—

71

Mar.
08.

Major General J. A. H. Pollock, C.B., Commanding Julundur Brigade, for 2 months and 21 days on private affairs under paragraph 226, Army Regulations, India, Volume II (the first 60 days on privilege leave).

Major General A. A. Pearson, C.B., Inspector General of Volunteers in India, for 5 months and 8 days on private affairs under paragraph 226, Army Regulations, India, Volume II (the first 90 days on privilege leave).

Major H. R. Blore, King's Royal Rifle Corps, Deputy Assistant Quarter Master General, Division of the Chief of the Staff, for 7 months on private affairs under paragraph 226, Army Regulations, India, Volume II (the first 90 days on privilege leave).

171. **Military Works Services.**—Major G. A. J. Leslie, Royal Engineers, is transferred from the 3rd Sappers and Miners to the Military Works Services.

172. **Medals—South Africa.**—A list of unclaimed South Africa medals in stock in the Army Department, Government of India, is published as an annexure to this order, for the information of all concerned. Applications for these medals should be submitted to that Department.

Officers Commanding Units, and Departmental Officers who may have South Africa medals in hand, owing to the recipients thereof not being traceable, should at once furnish a list of such medals to Major J. C. C. Perkins, I.A., C.M.A., Western Circle, Poona.

If, in dealing with applications for medals from men whose names are not entered in the list referred to, claims were investigated on the following lines, the medals would generally be found without much difficulty—

(1) The man's name as recorded *the first time* he went to South Africa should be stated. In hundreds of cases men went to South Africa, two and three times, each time under a fresh name, number, place of enrolment, etc.

(2) The number allotted to the man and the place of his enrolment on that occasion should be mentioned, e.g.,

"No. 500 Calcutta", or "600 Peshawar". For instance, suppose a syce's number was "500 Calcutta", the medal would be with the Supply and Transport Authorities, Calcutta.

(3) Rank, *i.e.*, Syce, Bhisti, etc., etc.

(4) Corps with which he first went to South Africa.

These particulars should be given in detail, as the difficulty experienced in disposing of applications has resulted in much unnecessary correspondence.

Enquiries addressed to Major J. C. C. Perkins, in connection with the South Africa Medal, should always be accompanied with full information on the points noted above.

173. Privilege leave to departmental officers with honorary rank, warrant officers of departments and Royal Engineers undergoing courses of instruction in England.—A departmental officer with honorary rank or warrant officer of the Ordnance Department, Supply and Transport Corps and the Military Works Services deputed from India under paragraph 428, Army Regulations, India, Volume I, as also a warrant officer of the Royal Engineers, who, at the end of a course of instruction or in the interval between two courses, may intend to avail himself of any privilege leave to his credit must notify his intention in sufficient time for the recommendation of the Government of India to be obtained.

Privilege leave pay will be issued by the India Office and the last pay certificate issued in India will show the rate at which it is issuable. In cases where the rate requires correction an amended certificate should be sent to the India Office on receipt of a notification that privilege leave has been granted unless it is clear that the amended certificate cannot be received in England before the individual has started on his return to India.

174. Furlough and Leave—British Army.—With reference to India Army Order No. 345 of 1907, it is notified for information that the sum of £2, which is required to be

5 deposited by all non-commissioned officers and men pro-
 ceeding on furlough to England (other than those who on
 arrival in England are entitled to travel on warrant) will
 be collected by the officer commanding the unit to which
 the non-commissioned officers and men belong, and a Re-
 mittance Transfer Receipt for the amount forwarded to the
 Brigade Major, Bombay or Karachi Brigade, as the case
 may be, at least 6 clear days before the sailing of the vessel
 by which the men are proceeding.

On receipt of the Remittance Transfer Receipt by the
 Brigade Major, Bombay or Karachi, he will cash it and
 hand the amount to the officer in command of the troops on
 board.

175. Organisation.—With reference to India Army
 Order No. 40 of 1908, it is notified for information that it has
 now been decided that the Office of the Northern Army
 will close at Naini Tal on 27th March and re-open at Murree
 on 6th of April 1908.

 of 1907 was cancelled. With effect from the 1st April

“ All extracts from or copies of Station Orders which are intended for presentation at the treasury should, when practicable, be signed by the officer on whose responsibility the orders are issued. As this may not always be possible or convenient, specimen of signature of officers who

may be authorised to sign true copies of such orders should be forwarded to the treasury officers concerned to enable them to compare signatures on the extracts or copies with the specimen."

When it is not possible or convenient to obtain the signature of the officer on whose responsibility the station order is issued, a true copy should be signed in writing by an officer authorised to do so.

218. Correspondence.—Attention is invited to paragraph 345 of the Indian Postal Guide, January 1908, by which the use of Service stamps is restricted to official correspondence addressed to the United Kingdom or British Possessions only.

2. It has been brought to notice that this rule has not been strictly observed, and that Service stamps are sometimes used on official correspondence addressed to Foreign countries. The prepayment of postal articles by means of stamps overprinted for State purposes is not recognised as valid under the regulations of the Postal Union, of which India is a member, and Foreign Postal Administrations refuse to accept such stamps in payment of postage. Considerable inconvenience is therefore caused to the addressee of official correspondence resident in Foreign countries owing to the payments which have to be made for the excess postage charged.

219. Correspondence.—The following corrections are made in the Statement showing the Channel for Correspondence, Reports and Returns from Brigades, Divisions and Army Commands:—

PART I.

Item No. 55-(1).—In column 6, clause (i), after "to be referred to the Quarter Master General" add "except in the case of telephones, when the following procedure should be adopted —

Pending a reprint of the form the following corrections should be carried out in manuscript in all copies of the existing stock, which should be used up :—

I. A. F. A-438—Note on obverse is reconstructed as follows :—

"In the case of a regimental officer proceeding out of India (except on privilege leave not combined with other leave) this certificate should be forwarded with I. A. F. A-449 to the audit officer in whose area of audit the officer is serving to be exchanged for a final last-pay certificate."

Where there are over 999 reservists attached to a centre, the Divisional Commander will decide whether half should be trained annually or the whole number biennially.

The date of the commencement of the training will be fixed by the officer commanding the regimental centre in the case of infantry reservists, and by the officer commanding the unit in the case of other reservists, with special reference to the convenience and agricultural necessities of the particular men trained.

I am commanded by the Army Council to acquaint you that it has been brought to notice that in cases where soldiers have been granted "Free" discharges in India, after having re-engaged to complete 21 years' service, the re-engagements have been cancelled by Officers Commanding Units instead of the men being sent home for a free discharge with over 12 years' service. By this procedure overcharges against Army Funds in respect of payment of their gratuity have arisen; further, in many cases the men have been serving some time after their 1st period of engagement has expired, and consequently they have strictly speaking not been serving on any engagement.

I am therefore to request that you will take such steps as will ensure the instructions contained in paragraph 1805—XV, King's Regulations, and Article 1058 (ii) of the Pay Warrant, 1907, being complied with.

Offg. Adjutant General in India.

INDIA ARMY ORDER

BY

His EXCELLENCY THE COMMANDER-IN-CHIEF
IN INDIA.

Army Head Quarters, Simla, the 22nd May 1908.

285. Accounts—Regimental. The Government of India have had under their consideration the desirability of—

285

22nd May
1908.

(i) extending to India the Home system of payment of British soldiers;

(ii) transferring the accounts work that is now transacted by Supply and Transport Divisional Accounts Officers to the Military Accounts Department.

They have now decided to introduce the above measures experimentally in the Poona Division with effect from 1st June 1908. The application of the Home system will be confined at the outset to the British troops stationed at Poona and Kirkee.

Subsequently (probably from about 1st October 1908) the system will be extended to other stations in the Poona Division and to all stations in the Rawal Pindi Division.

2. To carry out this scheme an officer of the Military Accounts Department, who will take the place of the Station Paymaster at Home, will be appointed as Divisional Disbursing Officer at Poona. During the experimental stage he will be assisted by two Acting Paymasters, and two Corporal or Sergeant Orderly-room clerks, preferably those serving with the two battalions of British Infantry whose accounts will now be compiled by the Divisional Disbursing Officer, Poona.

The services of any other soldier clerks trained in account duties who may be required for the Divisional Disbursing Office should also be placed at the disposal of the Controller, Military Accounts, Western Circle.

5 The necessary orders detailing these Acting Paymasters
 — and soldier clerks should be issued as early as possible by
 May the General Officer Commanding, 6th Division. 68.

3. Under the proposed arrangement the relation of the Divisional Disbursing Officer to the Supply and Transport Corps will be analogous to that of the Treasury Officer to Civil Officers of Government. All bills and charges accepted by the Executive Officers of the Supply and Transport Corps will be sent to the Divisional Disbursing Officer for preliminary audit and for disbursement, and the latter will keep an account of all money transactions relating thereto. The bills will then be sent by the Divisional Disbursing Officer to the Divisional Examiner for post audit, and it will be the duty of the former to enforce or reply to all objections raised by the Divisional Examiner on such post audit. The duties taken over by the Divisional Disbursing Officer will be those only, which relate to account work. He will have no administrative or executive responsibility.

4. Orders further defining the functions of the Divisional Disbursing Officer in respect to Supply and Transport Accounts work will if necessary be published later.

5. The Home system of payment of troops affords relief to the Captain* by practically reducing his financial duties to the payment of his men on a weekly wages list, while it leaves to him the regulation of cash issues, thus preserving the personal relation between the Captain and his men in the matter of pay.

6. The distribution of duties between the Captain and the Divisional Disbursing Officer will be as under—

The Captain will:—

(i) issue cash to the soldier;

(ii) record payments (a) in his pay and mess book (peace), (b) in an acquittance roll (war);

* The term "Captain" wherever it occurs in this order should be read to mean the Officer Commanding a Company of Infantry, a Squadron of Cavalry, or a Battery or Company of Artillery, who renders the pay and mess book.

(iii) keep the regimental stoppage account (peace only);

(iv) keep a simple account of cash received and disbursed.

22nd May
1908.

The Divisional Disbursing Officer will compile the soldier's ledger account and pay list, and undertake all other financial transactions for the company.

7. The following paragraphs explain the proposed procedure in detail, and are issued as instructions for the guidance of all concerned. The existing Army Regulations will be considered as modified accordingly in the case of units adopting the new scheme.

I. GENERAL PROCEDURE IN PEACE TIME.

(a) *Payment of men and record by Captain.*

8. The Captain will furnish the Divisional Disbursing Officer, to reach him three clear days before the date of weekly payment, with an estimate of his weekly cash requirements showing the date on which the men will be paid; the Divisional Disbursing Officer will forward a cheque for the amount estimated for in time to reach the Captain on the day preceding that on which the payment will fall due.

9. The Captain will pay his men as directed by regulations from this advance and account to the Divisional Disbursing Officer monthly for the advance in a simple cash account of receipts and issues which will be kept on the last page of the pay and mess book.

10. The pay and mess book (I.A.F. A1) is at present the foundation of the pay list, and is the Captain's record of all transactions with his men. A record of such transactions will, of course, always have to be kept, but this record can be considerably simplified. A specimen folio of the revised form of pay and mess book is printed separately as Form A. This retains the essential features of the older form while covering only one folio instead of nine.

11. The cash payment to the company will be regulated, as heretofore, by the Captain, who will be held responsible, as at present, that no over-issues are made. This point should

85

May
08.

be carefully noted. The total of the cash payments made to the men on each pay day will be certified by two witnesses, as well as by the officer paying the men. The Pay Sergeant should not be one of the witnesses. This certificate will render it unnecessary that the soldier should sign his account in the pay list (see paragraph 34). Casual payments should be supported by the men's receipts. The stoppages and regimental bills will be entered in the column provided for the purpose. Under no circumstances should voluntary subscriptions, *e.g.*, for cricket and foot-ball clubs, be treated as regimental bills and passed through the pay and mess book.

12. Cash payments to detachments will be made on the detachment pay sheet (Form C), which will be certified by the paying officer and by two witnesses, as directed in paragraph 11. At the end of each month the total pay issued to each soldier on detachment will be carried into the pay and mess book as a "casual payment," and the detachment pay sheet will be annexed to the pay and mess book in support of the entry.

13. As the Captain is not to compile the pay list, he will render to the Divisional Disbursing Officer at the end of each month, the original pay and mess book (Form A), keeping a duplicate for his own use. The preparation of a duplicate of the pay and mess book will cause relatively little extra work in the unit, and there are obvious advantages in having a complete record in the Divisional Disbursing office.

Regimental stoppages.

14. Regimental stoppages will be grouped together and form a consolidated charge of so much a month against individuals. By the introduction of this system of assessment a soldier should know exactly what amount will be stopped from his pay monthly, and, approximately, what sum he can draw weekly.

15. The monthly consolidated stoppage referred to, which should be assessed separately for married and single warrant officers and sergeants, and married and single rank

and file in each unit, will cover the charges hitherto made under the following heads :—

285

 22nd May
1908.

- (1) Sergeants' mess subscriptions.
- (2) Single Sergeants' messing.
- (3) Single men's messing.
- (4) Library subscriptions.
- (5) Washing.

Broken periods can be dealt with by fixing a daily rate in proportion to the monthly rate.

16. A detailed illustration of the working of this system will be found in the annexure to this order. This should be carefully studied by Officers Commanding Units before the new scheme of payment is put into operation. It will be clearly understood that this is only an illustration, and that the rates may be varied at the discretion of the Officer Commanding the Unit, so long as the regimental stoppages usually made from the soldier's pay are consolidated.

17. It is the practice in India for units to make payments for Barrack damages direct to the Military Works Services. The amounts are usually small, and it will be sufficient if the Captain shows the amounts to be deducted from individuals on this account in his pay and mess book under the head "Remarks, notes of fines, public stoppages, etc."

Abolition of monthly settlement.

18. The "Settlement" of the soldier's account on the last day of each calendar month will be abolished, and he will be paid on a weekly basis, every endeavour being made to so arrange the payments that a soldier will draw, as nearly as possible, the same amount each pay day. It is also desirable that every company should be paid on a fixed day of the week throughout the year. This would not of course prevent different companies being paid on different days. A settlement can be arranged for at any time that it may be thought desirable.

19. Should a soldier request permission to draw a small amount for the first three payments, and a large

35 amount on the last pay day in the month, there will be no
 May objection to the Captain meeting his wishes, if he deems
 08. such a course desirable.

20. The case of the ordinary well-conducted private, with pay, messing and stoppage allowance at 1s. 5d. a day, may be taken as an illustration. Assuming that he does not go into hospital or incur stoppages for clothing, etc., and that he starts with accounts clear, his credits for December quarter 1907 would amount to £5-2-10, made up as follows:—

	£	s.	d.
92 days at 1s. 5d.	6	10	4
Less Regimental stoppage, 3 months at (say) 9s. 2d. a month	1	7	6
	<hr/>		
	£5	2	10
	<hr/>		

If paid every Monday from 7th October to 30th December inclusive, three times at 8s. and every fourth week at 7s., his total cash payments would amount to £5 1s. and the monthly pay lists would show:—

		Credi's.	Debit's.	Balance creditor.
		£ s. d.	£ s. d.	£ s. d.
October (4 payments)	...	2 3 11	2 0 2	0 3 9
November (4 payments)	...	2 2 6	2 0 2	0 6 1
December (5 payments)	...	2 3 11	2 8 2	0 1 10
		6 10 4	6 8 6	

*Excluding balance cr. brought forward.

This mode of payment avoids fractions of a shilling, and will probably be found more convenient than paying

365 days at 1s. 6d.	25	17	1
Less 12 months at 9s. 2d.	3	10	0
				<hr/>		
				22	7	1
				<hr/>		

so that, if paid on the above plan every Monday, from 1st January to 30th December (39 weeks at 8s. and 13 weeks at 7s. = £20 3s. 1d.), he would have an extra 3s. to take with his 52nd payment, leaving a creditor balance of 1s. 1d. on the pay list to 31st December.

Payment of bills.

21. The Captain will pay all his regimental bills on, or before, the last day of the month and will forward the receipted bills to the Divisional Disbursing Office with his pay and mess book. It will be the duty of the Divisional Disbursing Officer to secure these receipts and to see that the totals of the tailor's, shoemaker's, and armourer's charges agree with the amounts shewn as stopped from the men. After stamping the bills, to shew that they have passed through the Divisional Disbursing Office, he will return them to the Captain, who will retain them.

22. In this connection attention is especially directed to paragraph 655 of the King's Regulations, and to the latter part of paragraph 683 *ibid.*, which states that "non-commissioned officers are not to be subjected to the risk of loss by having public money placed in their hands." The Captain, therefore, "is personally responsible for any sum of money he may entrust to subordinates," and under no circumstances whatever should a pay sergeant be allowed to pay the larger company bills.

Captain's cash book.

23. The Captain will, as at present, keep a record of all his cash transactions of a public character in the cash book and ledger (Form B).

24. In the second part of this book styled the "Ledger," the Captain will keep the stoppage account, and will enter therein on the Cr. side the total amount stopped from the men, together with any sums received from the Canteen fund in aid of messing, or from the sale of refuse; on the Dr. side the amount of all bills paid during the month will be entered. As the bills cannot exactly correspond with the fixed stoppage there will always be a small balance on this account, but as it is the only ledger account which the Captain will have to look after, this small piece of accounts work should be well within his powers. The Captain is entirely responsible for correctly keeping this account.

25. All battery funds, officers' mess and other similar accounts, hitherto shewn by artillery and other units in their balance sheets, should in future be treated as regimental funds, and no transactions regarding them should appear either in the cash book or ledger.

Captain's cash account.

26. The last folio of the pay and mess book contains provision for the Captain's cash account. It will be observed from the specimen printed on the last page of Form A, that the Captain debits himself, as he now does in Form 3 of the pay and mess list (I.A.F. A-1) in regard to the cash received from the Acting Paymaster, with the cash received by him and takes credit for the total cash issued to the men, for the regimental bills, and for the total amount of the consolidated stoppage, which will be treated as a cash payment, so far as his account with the Divisional Disbursing Officer is concerned. No direct charges against the public will be included in this form unless they have been pre-audited by the Divisional Disbursing Officer. Officers' allowances should always be claimed separately.

27. The total of the balances on the cash and stoppage accounts should represent the amount of cash in the possession of the Captain, which he should be in a position to produce at once on handing over charge of the company to another officer, or when called upon to do so. A specimen form of cash reconciliation statement has been drawn up on the back of Form A. In ascertaining the amount of "cash in bank," as shewn by his pass book, the

Captain should be careful to make allowance for cheques which have not been presented for payment.

22nd May
1908.

Transfer of Command.

28. The officer taking over charge of a company should satisfy himself—

- (1) That the cash payments during the month agree with the entries in (a) the pay and mess book, (b) the stoppage account in the company ledger; also that they are supported by receipts and vouchers, where necessary.
- (2) That all company bills have been paid to the end of the preceding month.
- (3) That the amount handed over, whether in the form of a bank balance or cash, agrees with the balance shown by the cash book. The bank balance should be verified by the pass book, allowance being made for any outstanding cheques.
- (4) That the amount of permanent advance given to meet contingent expenses has been accounted for in the manner directed in paragraph 41, Army Regulations, India, Volume III.

Information to be supplied to Divisional Disbursing Office.

29. Officers Commanding Units and Corps will be responsible for supplying the Divisional Disbursing Officer with all information affecting the men under their command, and should see that the Divisional Disbursing Office is supplied weekly, and up to the last day of each month, with copies of all regimental and corps orders affecting their emoluments. This information will be notified to the Divisional Disbursing Officer on I. A. F. A-53. In the case of cavalry and infantry a separate extract should be rendered for each squadron or company.

Hospital stoppages.

30. The hospital stoppage return (Form K) will be rendered to the Divisional Disbursing Officers to enable them to make the necessary recoveries.

Compilation of the pay list.

31. On the data furnished to him by the Officer Commanding the Unit, the Divisional Disbursing Officer will compile the ledger account of each man. This will be kept on the new form of pay list, a specimen folio of which is printed separately as Form D. The company cash payments and stoppages will be entered up from the original pay and mess book, and the "remarks" column will be posted from the regimental orders.

32. The Divisional Disbursing Officer will proceed with the compilation of the pay list as early in the month as may be convenient. He will credit each man's account with pay, etc., under the several headings, for the whole of the current month at the rate in force on the last day of the preceding month. As the "daily orders" are received he will make any adjustment which may be necessary by debiting the account, in the special column provided for the purpose, with the amount of pay which may have been forfeited. Similarly, he will credit the account with any increase of pay or any extra emolument which may be notified to him. Only the net amount of pay will be charged against the public, the necessary deduction being made in the recapitulation in Form No. 2.

33. On receipt of the pay and mess book the Divisional Disbursing Officer will see that the totals of the cash payments, stoppage and bills columns, agree with the corresponding figures in the Captain's statement of receipts and expenditure. As the figures from the "Total" column in the pay and mess book have to be posted to the debit of each man's account in the pay list, the accuracy of the cast will be automatically checked in the Divisional Disbursing Office.

34. After closing the men's accounts for the month, the Divisional Disbursing Officer will carry forward the Dr. and Cr. balances of the men to the following month's pay list (to be started) together with any other items or information that may help in the compilation thereof, and forward the pay list completed by him to the Captain, who will note the balances Dr. or Cr. in the pay and mess book of the following month, and make any necessary adjustment on the following pay day. This will give every man an opportunity of seeing how his account is made up. It is, therefore

unnecessary that the soldier should sign the pay list, as the correctness of his cash payments is certified by two witnesses in the pay and mess book. After the balances have been noted, the Captain will sign the pay list as to the correctness of the cash payments and stoppages, and will return it to the Divisional Disbursing Officer not later than the 15th of the month. The signed copy of the pay list will, on receipt back, be forwarded to the Divisional Examiner as a voucher to the Divisional Disbursing Officer's account. A complete copy of the pay list, together with the original pay and mess book, will remain in the Divisional Disbursing Office, and if any question arises about a man's pay, it can be settled without correspondence with the Divisional Examiner.

22nd May
1908.

Account of men on furlough in India.

35. The procedure laid down in paragraph 32 will be followed in the case of men granted furlough in India under paragraph 263, Army Regulations, India, Volume II, but their pay will be charged only to the end of the current month, although the furlough period may extend beyond.

Responsibility of Divisional Disbursing Officer and Captain in regard to cash payments.

36. No cash payments should be made by the Captain in respect of any increase in a man's rate of pay until such increase has been notified to the Divisional Disbursing Office and the proper amount has been placed to the credit of the man's account by the Divisional Disbursing Officer. This will save work in the company, obviate overpayments and consequent Dr. balances, and it will be no hardship for the man to wait for the sum due to him until the first pay day following the notification by the Divisional Disbursing Officer on completion of the pay list.

37. With regard to the cash payments made to individual soldiers, the Divisional Disbursing Officer's responsibility will be limited to seeing that a man's account is not thrown into debt at end of the month. The appearance of a Dr. balance in the duplicate pay list, which is sent to the Captain to note (para. 34), will in itself be a notification that the Captain should at once take steps to curtail the issues in that particular case, and, if this is not done

in the following month, the Divisional Disbursing Officer will specially call his attention to his disregard of the regulations. [See also Secretary of State's instructions on Article 957 of the Pay Warrant and para. 204 (iii), A. R., Vol. III.]

Rearrangement of columns in the pay list.

38. Under the head of public stoppages such as forfeited pay, hospital stoppages, fines for drunkenness, stoppages for clothing, etc., some further detail than is given in the present pay list is necessary, as the record will no longer be kept in the pay and mess book, nor will the credits be analysed by the Captain as in Form 2 of the old pay list (I. A. F. A-1). The necessary record of these stoppages will, therefore, be kept by the Divisional Disbursing Officer in the pay list (Form D).

Adjustment of a soldier's account on transfer.

39. When a soldier is transferred to another payment, say from Poona to Mhow Division on 10th January, the Captain will send to the Divisional Disbursing Officer a statement (Form H) showing the cash issued and the bills and other charges incurred up to date of transfer. The Divisional Disbursing Officer at Poona will complete the man's account up to the end of the month and forward to the Divisional Disbursing Officer at Mhow an advice note (I. A. F. A-146) for the Cr. balance due to the man, including this amount in the column headed "Any other miscellaneous debts, etc.," and sending

(a) During the transition stage it will be necessary, should the man be in debt, to prepare I. A. F. A-443 from the date on which the soldier first became indebted, or for a maximum period of six months. a transfer statement of accounts (I. A. F. A-443) showing the man as paid up to the last day of January. The man's name will appear in the Mhow pay list for January, but no pay will be charged for him until

February, the credit balance remitted from Poona being shown in the column headed "Other miscellaneous credits, etc.," and the cash payments, etc., made to him at Mhow appearing in the appropriate column. The charge against the public will thus always appear in the accounts of the unit with which the man begins the month. The account of a man transferred from one company to another of the same unit will be dealt with on similar lines.

22nd May
1908.

40. In cases of soldiers transferred who are in receipt of lance, additional, corps or engineer pay, the Divisional Disbursing Officer making the transfer will recover from the soldier's account any advance of such pay from the date of transfer. The Divisional Disbursing Officer receiving the transfer will credit the soldier with any difference of pay due to him in the pay list of his new unit.

N.B.—When the soldier is transferred to a unit whose accounts are not rendered under the Home system the Divisional Disbursing Officer will forward the documents above referred to, to the Acting Paymaster or the Officer Commanding the Unit to which the man is transferred.

Adjustment of soldiers' account on discharge or transfer to the Army Reserve.

41. When a soldier is to be discharged, the Captain will render Form H to the Divisional Disbursing Officer together with the gratuity (or deferred pay) claim, seven clear days before the casualty is expected to occur. In the case of a soldier who is to be transferred to the Army Reserve A. F. O-1814 will be rendered in addition. The soldier's account will then be closed by the Divisional Disbursing Officer, and the balance due to clear the account inserted in Form H. This will be returned to the Captain, who will then pay the man and secure his receipt. The form will be retained by the Captain and rendered to the Divisional Disbursing Officer at the end of the month in support of the entries in the pay and mess book.

Adjustment of accounts of drafts proceeding abroad.

42. In cases of drafts proceeding abroad, Form H will be rendered to the Divisional Disbursing Officer seven clear days before embarkation, or as soon as possible after the men have been detailed, and will include the names of "waiting" men. The accounts of these men will be made up in pencil on the pay list (including the regulated advance of pay reckoned from the date of embarkation), and the balances due to clear accounts inserted on Form H, which will be signed by the Divisional Disbursing Officer and forwarded to the Captains to enable them to effect a settlement. Should any payments have been made after the form has been rendered, the necessary deductions will be made from the balances due, and the net balance will be handed over to the Officer Commanding the Draft, whose receipt will be attached to Form H, in proof of payment,

and a reference given to the date of the *interim* payment. — On the draft proceeding, the names of any men who did not embark will be struck out of the form, which will immediately be returned to the Divisional Disbursing Officer, to enable the accounts to be finally closed, and the necessary transfer pay documents I. A. F. A-443, or A-444, to be prepared and forwarded. Should any forfeitures, fines, or other public stoppages have been incurred subsequent to closing Form H, the Divisional Disbursing Officer will adjust them as debtor balances on transfer, noting the fact on the transfer statement of accounts to explain the debt.

Non-effective accounts.

43. The Captain will prepare the heading and Forms 3 and 4 (savings bank balance and sale of kit) of Army Form O-1625, and then forward it to the Divisional Disbursing Officer for completion. These forms should be sent in to the Divisional Disbursing Officer as soon as possible after the casualties occur, and should not be retained till the end of the month.

Ration abstracts.

44. The Ration and Tinning Certificate (Provisional I. A. F. S-1518) will be completed by the Officer Commanding a Corps from details furnished by company commanders, *vide* Form 4 of Pay and Mess Book, and will be forwarded by him to the Divisional Disbursing Officer together with a statement (Form L) showing the distribution of rations by companies, squadrons, etc. The totals of rations thus shown must agree with the number of rations shown as drawn on the Ration and Tinning Certificate.

45. The Divisional Disbursing Officer, after comparing the number of rations shown as drawn with the number shown in the Pay and Mess Book, will forward the certificate to the Divisional Examiner for audit.

Transfer of a unit from the payment of one Divisional Disbursing Officer to that of another.

46. On the transfer of a unit from the payment of one Divisional Disbursing Officer to another, the current pay

lists will be completed to the date of the unit leaving the old station, and at once forwarded to the Divisional Disbursing Officer of the new station together with all sub-vouchers relating to them, so that compilation may not be delayed. As soon as possible after the close of the pay lists for the prior month, the accounts of the unit will be transferred in accordance with paragraphs 176, 194, 196 and 197, Army Regulations, India, Volume III. On receipt of the transfer documents the Divisional Disbursing Officer of the new station will verify the rates of pay, etc., in the current pay lists and will carry forward the balances of the men from the duplicate pay lists of the prior month, and return the latter to the Divisional Disbursing Officer of the old station. The accounts of "Details" left behind on transfer of a unit will be completed up to the end of the month in which the move takes place, in the manner laid down for ordinary transfers in paragraphs 39 and 40. The charges for pay, etc., for the month of the move will thus appear in the accounts of the new station although the men do not proceed there.

22nd May
1908.

All accounts and records for periods prior to the month in which a unit is transferred will remain in charge of the Divisional Disbursing Officer, and any objections outstanding on those accounts must be settled by the latter officer.

Soldiers temporarily attached to other units, Schools of Instruction, etc.

47. Soldiers temporarily attached to other units, etc., will be retained in the payment of their own units, except where it is known that the period of absence will extend beyond six months, or this method may not be considered convenient. In the latter case the transfer will be carried out in accordance with paragraphs 39 and 40. When the soldier is retained in the payment of his unit the Captain of his company will prepare and transmit, at the time he proceeds, detachment pay sheets (Form C) for each month or portion of a month of the probable period of duty, to the Captain of the company to which he is to be attached. The detachment pay sheet for the first month will contain the balance brought forward from last month, the man's rates of emoluments, and issues, etc., already made. He will also notify any stoppage or claims for which the

5 soldier may subsequently become liable, in order that the
 — cash payments may be regulated accordingly. The Cap-
 tain of the company to which the soldier is attached will
 8. make payments, based on this information, and will furnish
 monthly to his own Divisional Disbursing Officer particu-
 lars on the detachment pay sheet of the amount due for
 cash payments and stoppages. This may be signed by the
 soldier in lieu of the witnesses, if time would be saved
 thereby.

48. The Divisional Disbursing Officer will credit the
 Captain with the total amount and recover it by advice
 note (I. A. F. A-146) from the Divisional Disbursing Officer
 of the unit to which the soldier belongs, at the same time
 forwarding the detachment pay sheet in support of the
 claim. When necessary the Divisional Disbursing Officer
 compiling the pay list will notify the soldier's monthly
 balance to the Captain making the cash payments. Rations
 will be adjusted in the usual manner.

*Adjustment of balance sheet items when a unit comes
 under the new system of payment.**

49. The balance sheet should be put into as good order
 as possible, so as to show clearly the financial position of
 the company, on the last day of the month preceding the
 date of transfer.

50. As the Captain will in future keep only two
 accounts, namely, his cash accounts with the Divisional
 Disbursing Officer and the consolidated stoppage account,
 and only transactions arising out of these accounts will
 be recorded in his cash book, any cash belonging to a
 private fund (cricket club, etc.,) will be withdrawn, and
 the necessary entries recorded in the cash book. The
 total cash remaining should represent the public cash held
 by the Captain, *plus* the amount due to the stoppage
 account (Cr. balance).

51. As the balance (Cr.) on the last pay list rendered
 prior to transfer should represent the net balance of the

* These adjustments are applicable to the transition period only.

men, less amount of public cash, the only book entry necessary, after this balance has been brought forward, will be for the amount of cash to be credited to the company's account and debited to the Captain's account. 285
22nd May
1908.

52. Other items outstanding in the company balance sheet will be adjusted with as little delay as possible. Should any items, other than sums for which the Captain may be personally responsible, remain to be adjusted on the date of transfer, they will be posted in the Demand Register kept by the Divisional Disbursing Officer. Should there be any unrealisable assets the non-adjustment of which is not due to the Captain's fault or omission, application for a "write-off" should be submitted to the General Officer Commanding the Division. The amount of any liability which cannot be settled should be credited to the public.

53. Overcharges or undercharges in the men's accounts for the month preceding the change will be adjusted by the Divisional Disbursing Officer, the Captain, of course, being responsible in the event of non-recovery.

Pay and allowances, etc., of regimental officers.

54. The pay, etc., of officers will be drawn in the pay list (Form E) by the Divisional Disbursing Officer with reference to the last pay list and information appearing in Corps orders. A cheque for the total pay, etc., due will be sent to the Adjutant on the last day of each month, together with a statement shewing, on one side, the amount due to each officer, and on the other the deductions and the balance. All contract or other allowances payable to officers will be included in this statement. The officers will stamp and sign this statement, and the Adjutant will then return it to the Divisional Disbursing Officer for record.

Educational and Native Establishments, etc.

55. The Divisional Disbursing Officer will draw the pay of the Educational Establishment in Form I and that of the Native Establishment in Form J with reference to the last pay list and extracts from orders received by him, and will send a cheque to the Officer Commanding for the total amount due. The Officer Commanding will arrange for

the distribution of the pay, and will obtain the acquittances of the payees on the forms sent for the purpose by the Divisional Disbursing Officer. These acquittances will then be returned to the latter officer.

Mess and Band Fund.

56. The Government allowance for Mess and Band Funds will be included in the statement of pay, etc., due to officers, which is sent to the Adjutant for distribution of the salaries of officers. The Adjutant will pay these allowances to the President of the Mess or Band Fund, as the case may be, and will obtain their signatures to the payments.

57. The monthly subscriptions and donations due to each fund will be paid direct by the officers themselves under regimental arrangements.

Miscellaneous Charges.

58. An Officer Commanding a unit will be allowed a permanent advance to meet the cost of contingent expenditure, *i.e.*, telegrams, postage, hot-weather establishment, and such other charges as are not required to be met from contract allowances.

59. On the 10th of each month, the expenditure incurred on the above account up to that date will be included in I. A. F. A-115, which will be forwarded to the Divisional Disbursing Officer for payment, in order that the permanent advance may be recouped. The Officer Commanding the Unit will be held personally responsible for the amount of this advance until he has accounted for it to his successor in the manner described in paragraph 41, Army Regulations, India, Volume III.

60. Claims for miscellaneous charges of a personal nature such as rewards for passing language examinations, will be submitted to the Divisional Disbursing Officer for payment.

Demand Register.

61. The Paymaster will note in his Demand Register all payments for which he does not hold a legal acquittance. These demands will be removed from the book on receipt of the necessary voucher.

II.—PROCEDURE FOR THE PAYMENT OF TROOPS IN THE FIELD.

285

 22nd May
1908.

62. The Captain will obtain his funds from the nearest Field Treasure Chest or Field Pay Office according to his requirements, and after making payment* will render to the Paymaster at the Base of Operations, as soon after the close of each month as possible, a simple acquittance roll shewing the amount he has paid to each man. He will attach thereto all necessary extracts from orders, and other vouchers required by regulations, also a simple cash account (Form N) shewing the cash received and issued by him during the month. He will take credit therein for the total amount shewn by each acquittance roll, giving its number and date to facilitate reference.

63. The acquittance rolls (Form F), which will shew the date, name and amount received, and contain the man's receipt, should be bound in a book, about the size of a reporter's note book, with detachable leaves, and a carbon copy of each roll should be retained by the Captain for record. A separate sheet will be made out for each unit and will be sent to the Paymaster, to whom the Captain has to account for his cash advances received from the nearest Field Treasure Chest Office or Field Pay Office.

64. On active service the soldier should carry with him a pay book (Form G). The soldier's ordinary emoluments are clearly shewn at the beginning of this book, together with the amount he has allotted for payment elsewhere, the difference being the daily balance for issue to him. On this balance all cash payments should be based. The officer who makes the cash payments will in all cases enter the amount of the advance in the pay book, and attest the entry by his signature. The soldier can obtain the amount of pay due to him (approximately, of course) from any unit to which he may be attached. He should never part with his pay book until he produces it for final settlement of his account on his return to Cantonments in India.

65. If the soldier's account is kept throughout the campaign at the Base, the Paymaster will be able to render a

*In the field, payment to the men should be made only when considered desirable, and not oftener than absolutely necessary.

last-pay certificate or statement of accounts at any moment. — If he has reason to think it is incomplete, *e.g.*, if he has had no acquittance roll from the company, for a long time, he will state on I. A. F. A-443 wherein it is lacking, and it will be the duty of the Divisional Disbursing Officer in India to call for the soldier's pay book for comparison with the last-pay certificate. If the acquittance rolls have been regularly forwarded by the Captain, the last-pay certificate will be correct. If the roll has been lost in the post, this is a contingency of war, and the public may have to face the loss; but the keeping of a carbon copy will reduce the risk of loss to a minimum.

65. Should an officer holding money on imprest fail to report his cash payments, he will remain debited with the full amount of the advance, and will not be released until he can make out a case for being let off.

67. The soldier's account will be compiled by the Paymaster at the Base, who will be supplied with the following by the authorities at the Base:—

Death reports—by the Base Commandant.

Hospital stoppages—are not recovered in the Field.

With regard to the corps or engineer pay, or messing allowance, which are forfeited by men in a Base hospital the medical officer will render returns to the Paymaster.

Prisoners of war.—A list will be furnished by the Base Commandant.

Depôts of corps on field service. 211

68. In the case of a corps on field service the Officer Commanding the Depôt will pay the men left behind and will be provided with funds by the Divisional Disbursing Officer. He will obtain from the Captain of the Company, etc., a list of all men left behind with the rates of pay and the amount of their weekly cash payments and stoppages, and will account to the Divisional Disbursing Officer, for his payments in the usual pay and mess book. The procedure detailed for Captains for the submission and compilation of accounts during peace time will be followed.

II.—RULES FOR THE GUIDANCE OF DIVISIONAL DISBURSING OFFICERS.

285

 22nd May
1908.

Funds how obtained.

69. The Divisional Disbursing Officer will submit to the Controller of Military Accounts of his accounts circle, by the 1st January each year, an estimate, in duplicate, on I. A. F. A-213, of his cash requirements during the ensuing official year, shewing the probable amount required for each month, and the treasury from which required. The amounts for the first three months should be somewhat in excess of the monthly average of the year.

70. The Controller of Military Accounts, after checking the estimate and making any necessary additions and alterations therein, will return the duplicate copy for the guidance of the Divisional Disbursing Officer, and for record in his office.

71. Should an additional credit be found necessary during the currency of the year, application for it, or for the transfer of the amount from some other treasury where the balance is found to be excessive, should be made to the Controller ; the necessity for the extra assignment being at the same time fully explained.

72. These assignments will be drawn against by cheques, forms of which will be supplied by the Controller.

73. The credit or allotment for a month, as shewn in the sanctioned estimate, need not be exhausted in the same month, but should be operated against to the extent required, to meet actual payments, not exceeding the total credit for the month. The undrawn balance of a month will, if required be available for drawings in subsequent months. The amount drawn at any time must not, however, exceed the available balance of previous months' allotments, plus the allotment for the then current month.

74. The undrawn balance on the last day of the year lapses, except as regards cheques drawn before, but paid after, the end of the year, the amounts of which will be taken against the balance of the assignment of the year in which the cheques were drawn.

75. A register in I. A. F. A-276, showing (i) the ordinary and supplementary cash assignments for each month on each treasury as sanctioned by the Controller, (ii) the daily drawings against them, and (iii) the daily balance, will be maintained by the Divisional Disbursing Officer. By means of this register he will regulate his drawings, and apply to the Controller in time for any additional credits required.

Payments by the Divisional Disbursing Officer.

76. Payments will be made by cheques and transfer receipts. To enable the Divisional Disbursing Officer to make petty cash payments of sums of less than Rs 10 he will draw a cheque not exceeding Rs. 100 at a time in favour of himself. The amount so drawn will be shown on the Dr. side of his cash book, and the payments made therefrom will be entered on the Cr. side of that book. No more cash than is absolutely required for payment each day will be drawn.

77. Every detail of a deduction made by the Divisional Disbursing Officer from a bill or other voucher will be clearly and accurately described on the bill or the voucher in order that the Divisional Examiner by whom it is audited and compiled, may be placed in a position to carry out these duties without difficulty, or reference to the Divisional Disbursing Officer.

78. On the face of each bill or voucher, must further be noted, in red ink, the number, date, and amount of the cheque or transfer receipt issued in payment thereof, and it should be stamped with the word "paid." Where payment is made in cash, as distinct from cheque, or transfer receipt, this fact should be so noted on the voucher. The net amount shewn in each voucher, after all the deductions have been made, should be that which has been actually paid on the voucher either by cheque, transfer receipt, or actual cash.

Accounts to be rendered by the Divisional Disbursing Officer.

79. The monthly account of a Divisional Disbursing Officer will be a complete record of his cash transactions

for the month for which it is prepared, the cash transactions comprising actual cash, currency notes, cheques and remittance transfer receipts.

285

 22nd May.
1908.

80. The Supply and Transport Divisional Accounts Officer, whose duties will now be performed by the Divisional Disbursing Officer, renders similar account to the Divisional Examiner, *vide* paragraph 242 (c), Army Regulations, India, Volume III. A separate cash account current will not, therefore, be necessary for charges in connection with the payment of British Troops. It will be sufficient if the cash account current rendered by the Supply and Transport Divisional Accounts Officer be maintained and rendered by the Divisional Disbursing Officer, and two sets of Schedules (IV) and (VIII) prepared—one for Supply and Transport charges, and the other for charges on account of British Troops.

ANNEXURE TO INDIA ARMY ORDER NO. 285 OF 1908.

REGIMENTAL STOPPAGES.

1. The following example will illustrate the working of the system of Consolidated Regimental Stoppages.

2. The ordinary charges and stoppages are calculated at the following rates:—

Sergeants' mess subscriptions—			s.	d.
Single men	1 6 monthly.
Married men	0 9 "
Sergeants' messing	0 6 per diem.
Rank and file messing	0 3 " "
" " washing	0 0½ " "
Library subscriptions of all ranks			...	0 2 per month.

3. The single Sergeants in mess would thus be liable to pay for messing and subscriptions (making their own arrangements for washing), in a 31-day month, 17s.; in a 30-day month, 16s. 6d.; in a 28-day month, 15s. 6d.; or a yearly average of 16s. 8½d. per month.

If the monthly stoppage is fixed at 16s. 10d., this should cover all charges for barrack damages.

Married Sergeants would only pay 9d. per month mess subscription.

4. Single rank and file would be liable to pay for messing, washing, and library:—

31-day month, 9s. 2½d.; 30-day month, 8s. 11d.; 28-day month, 8s. 4d.; or a yearly average of 9s. 0½d. per month.

If the monthly stoppage is fixed at 9s. 2d., this should cover all charges for general barrack damages.

Married rank and file would pay 2d. per month to library, if subscribers.

5. A small company consisting of—

1 Colour-Sergeant married
3 Sergeants 1 married, 2 single
50 Rank and file 5 married, 45 single

may be taken as an illustration, and the following tables will show the receipts and expenditure worked out on the above data:—

Receipts for any month—

	£.	s.	d.
Mess subscriptions, married Sergeants, 2 at 9d. ...	0	1	6
Mess subscriptions and messing, single Sergeants, 2 at 16s. 10d. ...	1	13	8

6. This works out for twelve months as follows :—

	£.	s.	d.
4 months Cr. balance at 11s. 11d. ...	2	7	8
1 month Cr. balance at £2 0s. 2d. ...	2	0	2

Deduct 7 months' Dr. balance at 2s. 2½d. ...	0	15	5½

	£ 3	12	4½
	<hr/>		

The credit of £3 12s. 4½d. arising on the year's working should be quite sufficient to meet any charges on account of general barrack damages, if proper care is taken in a unit to trace individual charges.

7. Broken periods have not been included in the above; these should be dealt with by charging a proportion of the monthly rate according to the number of days in mess.*

8. Any allowance from the Canteen or Refuse Fund will go to the credit of the messing.

* NOTE.—Where there are numerous casualties, as in a depôt, or in exceptional cases where the soldier cannot be made to appreciate a monthly rate, it may be found desirable to make an exception to the general rule, and adopt a daily rate, and this is left to the discretion of the Officer Commanding the Unit. It will, however, probably be found that, except perhaps in the case of a depôt, the monthly rate will, eventually, be more beneficial to the soldier.

INDIA ARMY ORDER

BY

HIS EXCELLENCY THE COMMANDER-IN-CHIEF
IN INDIA.*Army Head Quarters, Simla, the 23rd May 1908.*

286. Organisation—Indian Army.—The Commander-in-Chief has much pleasure in announcing that the Secretary of State has sanctioned the following improvements in the condition of service of non-commissioned officers of Silladar Cavalry, and it is notified that, with effect from the 13th May 1908, the following will be the Army Department No. 1739- establishment of non-commissioned officers and men instead of that authorised by clause 130, India Army Circulars of 1900:—

The following are the complete rules for the conduct of the match in India:—

(1). *Army Rifle Association Rule 4. Matches.*—The match may be fired on any day or days during the holding of the local Association's Meeting.

(2). *Army Rifle Association Rule 6. Rifles.*—No competitor is allowed to fire with any weapon except that with which his unit is armed (weapons of private manufacture bearing Government view marks are prohibited). A competitor whose unit is armed with a non-charger loading weapon may, however, shoot with the Short M. L. E. Rifle.

(3). *Army Rifle Association Rule 7. Sights.*—No alteration or modification (or blackening of the sights) of rifles as issued is permitted, nor may any addition be made thereto. No appliance for adjusting rifle sights is to be used.

(4). *Army Rifle Association Rule 11. Hits on wrong targets.*—Should the number of hits on the target (or targets) of any competitor exceed the number of rounds fired by him at any distance, there shall be deducted from his total score at that distance, *for every hit found in excess*, the average value of the total number of hits made on his target (or targets) calculated if the result be fractional to the next higher whole number.

(5). *Army Rifle Association Rule 12. Timing.*—A *stop-watch* is to be used for timing exposures or duration of fire. When timing is carried out at the firing point the first sound of the whistle will be the signal for ceasing fire. The hit or hits of the highest value will be deducted from the score of a competitor for each shot fired after the first sound of the whistle.

Target exposures for snaphooting and sighting competitions will be timed by the officer superintending at the butts.

Rapid firing competitions will be timed by the officer superintending at the firing point.

Figure targets will be raised and lowered in the manner found most convenient locally for securing accuracy and smartness in each exposure.

(4). *500 yards. (Rapid Firing).*—Second class figure target, as laid down in Musketry Regulations 1905, Plate 10, (amended by Army Order No. 40 of 1907), except that the upper half as well as the lower will be coloured khaki, with an additional concentric ring 24 inches in diameter. Rounds Unlimited; Forty-five seconds allowed for each firer. Sighting shots. Two. (Compulsory) The timing will be reckoned from the command "Fire". Before the command "Fire" is given, ammunition may be placed in the bandolier or pouch, or on the ground, but it must not be held in the hand or placed in any specially convenient position. The rifle is to be empty before the command "Fire" is given. The rifle should never have more than five rounds in the magazine, but an error in re-charging before it is empty will not be penalised unless there is reason to presume intention.

The officer in the butts will see that the holes made by sighting shots are patched and marked off with a pencil ring before competition firing begins. The score will be signalled or telephoned to the firing point after each competitor has fired. Misses and ricochets will not be signalled. Scoring—Five, four, three, two and one.

(5). *800 yards (Sighting).*—First class regulation bulls-eye target with Bisley bulls-eye, inner and magpie. Five rounds. Direct hits, but not misses or ricochets will be signalled. Position of hits will be shown by spotting discs. Targets will be exposed five times for twenty seconds each time, and forty-five seconds will be allowed after all signalling is finished before the next exposure.

Rounds not fired will be forfeited. Scoring—Bisley.

(6). *1,000 yards (Sighting).*—As for 800 yards.

Application should be made to the Honorary Secretary, Bengal-Punjab Rifle Association, Simla, not earlier than the 15th August 1908, for the figures required for Matches 1 and 2, which will be issued on payment to Secretaries of Associations only. *They are not to be furnished to units.*

SPECIAL.

INDIA ARMY ORDER

BY

HIS EXCELLENCY THE COMMANDER-IN-CHIEF

IN INDIA.

Army Head Quarters, Simla, 21st September 1908.

Furlough and Leave—British Army.—With the approval of the Right Hon'ble the Secretary of State for India, the Government of India have been pleased to sanction, with effect from the trooping season of 1908-09, the grant, to British regimental soldiers serving in India, of furlough to the United Kingdom, subject to the conditions set forth below and to the exigencies of the trooping service.

The furloughs now sanctioned are to be in addition to the furloughs already admissible under the rules contained in Army Regulations, India, Volume II, and will consist of furloughs on payment, up to a limit of 250 for all India. 2. All ranks, with the exception of men enlisted for three years' colour service who have not extended, may be granted furlough after two years' service in India, on payment of £15 (Rs. 225). In return for this payment the soldier will receive passage in a Government transport and messing on boardship, but will have to pay his own railway fare to and from the ports of embarkation and disembarkation. For the Indian portion of the land journey the soldier proceeding on payment furlough will travel at concession rates—*vide* paragraph 23, Army Regulations, India, Volume X. The soldier on payment furlough, whilst being subject to military discipline, will not be required to do duty on boardship except in an emergency. 3. To be eligible for this class of furlough a soldier must not only have completed two years' service in India as stated above, but must also fulfil the following further conditions:—

(1) Every man must satisfy his commanding officer that he has some urgent and valid reason necessitating his presence at home; the wish to get away from India for a short time just for a change not being treated as a valid reason.

- (ii) Every man must have at least a "good" character and be an efficient soldier, *i.e.*, in receipt of either service or proficiency pay, class I; men who are habitually inefficient owing to alcoholism or preventable disease will not be eligible for furlough.

4. This class of furlough is ordinarily only to be granted during the summer months, the men proceeding home by the last transport of one trooping season and returning by the first of the following; thus the duration of furlough will be usually five to six months.

5. The following additional rules for this class of furlough are also laid down :—

- (a) Absence on payment furlough will not be held to break continuity of foreign service for purposes of transfer to the home establishment.
- (b) Men serving at or near seaport towns, granted furlough under this rule, may, if they so desire, be permitted, in lieu of the payment of £15 for passage in a transport, to work their passage home and back to India in a merchant vessel. Men granted this privilege should be required to produce a certificate from the shipowners or Master of the vessel guaranteeing employment and commanding officers concerned should assure themselves that the men have actually undertaken such employment. The soldier should be instructed, if he intends to work his passage back to India in a merchant vessel, to notify to the officer mentioned in paragraph 9 of the instructions on India Army Form L-1174 (which form will be used for *all* men granted furlough under the rules contained in this order), the name of such vessel, date of sailing and name of port and probable date of arrival in India. The man should also be required to deposit with his commanding officer the cost of the return journey in a transport (*i.e.*, £7-10-0 (Rs. 112-8-0). This money will, subject to the conditions in clause (d) and provided the man is not given passage in a transport or other vessel, be refunded to the soldier after his return to India.

(c) Men who, whilst at home on payment furlough, marry with the permission of the proper authority, will be required to pay their wives' passages to India. Permission to marry should not be granted unless a vacancy in the married establishment of the unit actually exists.

(d) If a man fails, at the expiration of his furlough, from any cause, to embark for India in a Government transport or other vessel in which ordered to embark, and it becomes necessary for him to be sent to India in another vessel, the cost of such passage—[less the amount, viz., £7-10-0 (Rs. 112-8-0) already paid for the return journey in a transport]—will be recovered from the soldier after his return to India, by monthly instalments deducted from his pay, but if the money deposited by the soldier for the return journey exceeds the cost of such passage, the difference will be refunded to him.

6. The provisions of India Army Orders No. 345 of 1907 and No. 174 of 1908 (as amended by India Army Order No. 348 of 1908) regarding the deposit of £2-0-0 with the officer commanding the troops on board, should be strictly enforced in the case of "Payment" furlough men. This rule, however, will not apply to the men referred to in paragraph 5 (b).

7. Furlough under these special rules may again be granted to the classes referred to in paragraph 2 on completion of a further qualifying period of service in India.

8. The provisions of this order will not apply to Aden.

9. The 250 payment furloughs are, for the present allotted to Divisions in the following proportion:—

Division.	Number.
1st (Peshawar) Division	11
2nd (Rawal Pindi) Division	25
3rd (Lahore) Division	32
4th (Quetta) Division	16
5th (Mhow) Division	28
6th (Poona) Division	23
7th (Meerut) Division	32
8th (Lucknow) Division	39
9th (Secunderabad) Division	29
Burma Division	13
TOTAL	250

10. In order that the authorised number of this class of furlough may be fully utilised, Divisional Commanders will submit, *without a covering letter*, to the Adjutant General's Division, on 1st February annually, a statement in the form reproduced as an annexure to this Order; on receipt of which at Army Head Quarters such furlough vacancies as may exist in one Division will, if necessary, be allotted to other Divisions. No changes in the above, or any subsequent allotment, will be permitted without previous reference to the Adjutant General in India.

Adjutant General in India.

1st (Peshawar) Division.

In column 1 for "Nowshera Infantry Brigade" substitute "Nowshera Brigade."

and (Rawalpindi) Division.

In column 1 for "Rawalpindi Brigade" substitute "Rawalpindi Infantry Brigade."

9th (Secunderabad) Division.

In column 1 for "Bangalore Infantry Brigade" substitute "Bangalore Brigade."

- (i) Every man must satisfy his commanding officer that he has some urgent and valid reason necessitating his presence at home; the wish to get away from India for a short time just for a change not being treated as a valid reason.
- (ii) Every man must have at least a "good" character and be an efficient soldier, *i.e.*, in receipt of either service or proficiency pay, class I; men who are habitually inefficient owing to alcoholism or preventable disease will not be eligible for furlough.

4. This class of furlough is ordinarily only to be granted during the summer months, the men proceeding home by the last transport of one trooping season and returning by the first of the following; thus the duration of furlough will be usually five to six months.

5. The following additional rules for this class of furlough are also laid down :—

- (a) Absence on payment furlough will not be held to break continuity of foreign service for purposes of transfer to the home establishment.
- (b) Men serving at or near seaport towns, granted furlough under this rule, may, if they so desire, be permitted, in lieu of the payment of £15 for passage in a transport, to work their passage home and back to India in a merchant vessel. Men granted this privilege should be required to produce a certificate from the shipowners or Master of the vessel guaranteeing employment and commanding officers concerned should assure themselves that the men have actually undertaken such employment. The soldier should be instructed, if he intends to work his passage back to India in a merchant vessel, to notify to the officer mentioned in paragraph 9 of the instructions on India Army Form L-1174 (which form will be used for *all* men granted furlough under the rules contained in this order), the name of such vessel, date of sailing and name of port and probable date of arrival in India. The man should also be required to deposit

 19th Oct.
1908.

with his commanding officer the cost of the return journey in a transport, *i.e.*, £7-10-0 (Rs. 112-8-0). This money will, subject to the conditions in clause (d) and provided the man is not given passage in a transport or other vessel, be refunded to the soldier after his return to India.

- (c) Men who, whilst at home on payment furlough, marry with the permission of the proper authority, will be required to pay their wives' passages to India, *viz.*, £7-10-0, inclusive of messing, if proceeding by transport; and ordinary fares if by private vessel. Recoveries on account of the cost of transport passages for wives may be effected from the soldier's pay, after his return to India, by monthly instalments. Permission to marry should not be granted unless a vacancy actually exists in the married establishment of the unit.
- (d) If a man fails, at the expiration of his furlough from any cause, to embark for India in a Government transport or other vessel in which ordered to embark, and it becomes necessary for him to be sent to India in another vessel, the cost of such passage—[less the amount, *viz.*, £7-10-0 (Rs. 112-8-0) already paid for the return journey in a transport]—will be recovered from the soldier after his return to India, by monthly instalments deducted from his pay, but if the money deposited by the soldier for the return journey exceeds the cost of such passage, the difference will be refunded to him.

6. The provisions of India Army Orders No. 345 of 1907 and No. 174 of 1908 (as amended by India Army Order No. 348 of 1908) regarding the deposit of £2-0-0 with the officer commanding the troops on board, should be strictly enforced in the case of "Payment" furlough men. This rule, however, will not apply to the men referred to in paragraph 5 (b).

7. Furlough under these special rules may again be granted to the classes referred to in paragraph 2, on completion of a further qualifying period of service in India.

8. The provisions of this order will *not* apply to Aden,

9. The 250 payment furloughs are, for the present, allotted to Divisions in the following proportion :—

Dot.
f.

Division.	Number.
1st (Peshawar) Division	11
2nd (Rawal Pindi) Division	25

7th (Meerut) Division	32
8th (Lucknow) Division	39
9th (Secunderabad) Division	29

TOTAL	250

10. In order that the authorised number of this class of furlough may be fully utilised, Divisional Commanders will submit, *without a covering letter*, to the Adjutant General's Division, on 1st February annually, a statement in the form reproduced as an annexure to this Order; on receipt of which at Army Head Quarters such furlough vacancies as may exist in one Division will, if necessary, be allotted to other Divisions. No changes in the above, or any subsequent allotment, will be permitted without previous reference to the Adjutant General in India.

11. Divisional Commanders will prepare nominal rolls of all soldiers granted furlough under this order and forward the same, *in duplicate*, to the India Office *in sufficient time to reach that office before the arrival of the men themselves in the United Kingdom*. These nominal rolls should show the regimental numbers, ranks and corps (battery or company in the case of Royal Artillery units) of the individuals concerned, and also the name of the transport by which proceeding and date of sailing.

592. Forms.—The undermentioned form has been revised :—Army Form B-93-I—Sea Ranges—Range officer's report of practice.

The revised form will be taken into use when the stock of the existing form is exhausted.

593. Corrigendum—Volunteer Long Service Medal.—
 In the annexure to India Army Order No. 486 of 1908,
 under the heading "Oudh and Rohilkhand Railway Volun-
 teer Rifles," for "Volunteer T. C. George" read "Volunteer
 C. G. Thomas."

HIS EXCELLENCY THE COMMANDER-IN-CHIEF
IN INDIA.*Army Head Quarters, Simla, the 26th October 1908.*

594. The London Gazettes of the 25th and 29th September and 2nd October 1908 were received at Army Head Quarters on the 19th October 1908.

594

26th Oct.
1908.

595. Appointments.—The Commander-in-Chief in India is pleased to make the following appointments:—

Gymnastic Staff.—Captain B. G. R. Gordon, 2nd Battalion, The Gordon Highlanders, to be Superintendent of Gymnasia, Amballa, vice Captain H. H. G. Hyslop, Argyll and Sutherland Highlanders, vacated. Dated 5th October 1908.

Captain M. B. Webb, The Sherwood Foresters. 7th September 1908.

Lieutenant F. A. Don, Indian Army. 18th October 1908.

596. Leave.—The undermentioned Officer is granted leave out of India:—

Major-General R. A. P. Clements, C. B., D. S. O., Commanding, 4th (Quetta) Division, for three months on private affairs, under paragraph 226, Army Regulations, India, Volume II (the first 60 days on privilege leave).

The undermentioned officer is granted leave in India:—

Major F. Baylay, Royal Engineers, Military Works Services, for one month on private affairs under the Leave Rules of 1886 for the Indian Army.

That portion of India Army Order No. 517, dated 21st September 1908, which relates to Major F. Baylay, Royal Engineers, is cancelled.

597. Furlough and Leave, Officers.—In the second paragraph of India Army Order No. 500 current, *delete* from the words "and may," fifth line, to the end of the paragraph.

598. Pay and Allowances—British Army.—It is notified for information that as there is no British Infantry rank equivalent to that of Bombardier of Royal Artillery, the Government of India have been pleased to decide that a Bombardier of Royal Artillery appointed to act in an appointment on the India Unattached List (excluding the Ordnance Department) the full staff pay of which is available, shall be allowed the rate of pay authorised for a Corporal of British Infantry.

599. Pay and Allowances—British Army.—It is notified for information that the Government of India have sanctioned the provisions of Article 786, Royal Warrant, 1907, in so far as they relate to a deduction being made from the pay of rank of armament artificers when absent from duty, being made applicable to India. A deduction at the rate of rs. 6d. a day, commencing on the 29th day, will accordingly be made from the pay of rank of armament artificers of the Machinery Artificer Section, Army Ordnance Corps, serving in India, when absent from their duties for a period exceeding 28 days, under any circumstances except when travelling on duty and whilst attending a course of instruction.

2. The regulations will be amended in due course.

600. Conditions of Service for Officers detailed for duty with Reserve and extra Reserve Battalions of the Territorial Force.—The Army Council have informed the Secretary of State for India in Council that they have had under consideration the appointment of regular Infantry

officers to the Permanent Establishment of the Battalions of the Special Reserve shortly to be created under the special Army Order of 23rd December 1907, (Appendices V and VI).

26th Oct.
1908.

2. Briefly stated, the effect of the new organisation is to replace the existing Depôts of regular Line Infantry, and 74 of the existing Militia Battalions, by 74 "Reserve" Battalions the Permanent Establishment of which will train recruits for both the Line and the Special Reserve, and to convert 27 other existing Militia Battalions into "Extra Reserve" Battalions the Permanent Establishment of which will not train recruits for the Line.

3. A Reserve Battalion has a Permanent Establishment of six regular officers, and an Extra Reserve Battalion a Permanent Establishment of four, in addition to an Adjutant and a Quarter Master in either case. This will result in an increase of two regular officers in the Permanent Establishment of each Reserve Battalion over the combined Permanent Establishment of the Depôt and Militia Battalion, and of four regular officers in the Permanent Establishment of each Extra Reserve Battalion. The Army Council have intimated that corresponding additions will be made accordingly to the total number of officers in the several regiments.

4. Under present rules, an officer serving abroad may apply for an appointment as Adjutant of a Militia Battalion, on condition that, if appointed, he pays his passage and that of his successor in the unit abroad. If, in default of such an applicant, an officer serving in India is selected for the appointment on public grounds, the liability for passage rests upon the Imperial Government. Should an officer appointed for duty with a Reserve Battalion resign his appointment before completing his three years' tour, the question of the liability for the cost of his passage and of his successor's would be governed by the rules which at present apply in the case of officers who resign their depôt service.

5. Of the four officers on the Depôt Establishment, two are normally found from the Battalion abroad, and for Battalions in India the cost of passages so arising is an Indian liability. The tour of Depôt service being two years, the average number of officers proceeding to, and from the United Kingdom annually at the expense of India from this cause is one per Battalion in India.

6. As it will not be possible to fill the Adjutancies of Reserve Battalions and Extra Reserve Battalions by the old system of allowing officers to register their names for these posts, and in view of the much greater importance attached to the work of these Battalions than to that of Militia Battalions, it will be necessary to select officers with special qualifications for these positions.

7. The cost of the passages of officers proceeding Home on appointment as Adjutants of Reserve Battalions and of all officers posted to Extra Reserve Battalions, together with their successors on the Indian Establishment, will be chargeable to Imperial funds.

8. To provide the increased numbers of regular officers, exclusive of Adjutants, required for the Reserve and Extra Reserve Battalions, it has been decided that the Battalion abroad will provide half the added number, i.e., one for each Reserve Battalion and two for each Extra Reserve Battalion, but in order to reduce the frequency of the moves of officers and to avoid any increased charges on account of passages, the tour of Depot (or Reserve Battalion) service has in all cases been extended from two years to three years.

9. The rules relating to the passages of Quarter Masters for Reserve and Extra Reserve Battalions, and of Adjutants of the Territorial Force, will continue as at present for Militia Quarter Masters and Volunteer Adjutants respectively.

601. Organisation.—Native Artificers.—It is notified for information that the instructions for the formation of a Corps of Indian Ordnance Artificers contained in India Army Order No. 470 of 1906 are cancelled.*

* Department of Military Supply No. 6327-G, dated 25th September 1908.

602. Necessaries.—British Army.—Only cap badges with vertical shanks, in regimental charge, are to be taken away by units leaving India, as these badges are interchangeable. Cap badges, with pins, in regimental charge,

are not to be taken away. These badges must be disposed of under instructions from the Superintendent, Army Clothing Factory, before units leave India.

603.

26th Oct
1908.

603. Inquiries.—An inquiry has been received as to the whereabouts of Sergeant Edward Appleyard, who is said to have been serving in the Punjab some 30 years ago. Any information on the subject that may be forthcoming may be communicated to the Adjutant General in India.

604. Small Arm Ammunition.—With reference to paragraph 135, Musketry Instruction, Native Army, 1904, and paragraph 1, page 1, Indian Appendix to the British Musketry Regulations, 1905, as amended by India Army Orders Nos. 570 of 1906, and 55 of 1907, respectively, it is notified that the term "actual strength" for the purpose of calculating the amount of small arm practice ammunition required, means the strength of a unit (including squadron and company officers of British and Indian units who draw special allowances) on the date on which the annual course of musketry commences, plus those men non-exercised, or partly exercised, who join subsequently from Home or other sources.

2. Men who executed the trained soldiers course at Home or in the Colonies in the same musketry year as they arrive in India, will not fire another course in India during the same year.

3. The above decisions will not affect artillery units, who will continue to draw their ammunition "per bandolier" as hitherto.

605. Army Orders.—Attention is invited to the following Army Orders dated 1st August 1908:—

Army Order No. 197—Royal Army Medical Corps. Examination of Majors for promotion.

IN INDIA.***Army Head Quarters, Simla, the 29th October 1908.*

Detention Allowance.—With reference to India Army Order No. 405 of 1907, the Government of India have approved of the tentative grant of detention allowance to officers of British and Native regiments when detached from their regiments on temporary duty, being made permanent with effect from 1st October 1908, subject to the following rules which supersede those published in the above quoted India Army Order:—

- (i) Detention allowance at the rate of Rs. 5 per diem will be granted to all British regimental officers including officers of the Indian Medical Service when doing duty with Native units, and at the rate of Re. 1 per diem to all Native regimental officers, irrespective of rank, whenever they are detached from their stations on any of the following duties:—

(a) Court-martial duty.

(b) Duty in connection with Courts of Enquiry, Boards and Committees, whether as a member or as a witness.

(c) Duty in connection with examinations in professional subjects including entrance examinations for Staff College and in Native languages, whether as members of boards, superintending officers, examiners, or examinees.

Officers presenting themselves for examination in any subject, after having once failed in the same, are ineligible for the allowance even if they pass the examination on a second or a subsequent occasion.

- (d) Attending Civil Courts as witnesses or watching cases on behalf of corps.
- (e) Temporary duty in connection with guards of honour and escorts to high officials, excluding duty with guards or escorts permanently authorised for certain officials.
- (f) When as students at the Indian Staff College absent from the College on temporary duty, otherwise than when attached to other arms of the service for the attached course.
- (g) Inspection duty of any kind specially ordered by the General Officer Commanding an Army, Division, or Brigade, or the Commandant, Indian Staff College, including visits to regimental horse runs, inspections of camping grounds, grass rukhs and water supply.
- (h) All duties such as staff rides, regimental tours, reconnaissance, and intelligence work carried out under the orders of the General Officer Commanding an Army, Division or Brigade, or Commandant, Indian Staff College. Also all duties of the nature above indicated, undertaken under the authority of any of the officers above named in connection with preparations for manœuvres, brigade concentrations, field firing, and other cognate duties directly relating to the administration, discipline or training of the troops.
- (ii) Detention allowance cannot be drawn for the same day as the travelling allowance admissible under paragraph 29, Army Regulations, India, Volume X. An officer may, however, draw detention allowance, in lieu of travelling allowance, on any occasion on which it may suit him to do so.

Note.—A day for this purpose is counted from midnight to midnight.

- (iii) Detention allowance cannot be drawn for more than a ten days' halt at any one place; but the General Officer Commanding a Division or Independent Brigade may exempt an officer from the operation of this rule in special cases in which he is satisfied that the proposed halt was necessary in the interests of the Service, and that the officer was put to extra expense by his halt after the expiration of the first ten days.
- (iv) Except in the special circumstances referred to under (c) in clause (i), detention allowance is not admissible when an officer is—
 - (a) present or doing duty with his unit, or with a portion thereof, either on detachment, at manœuvres, or on the line of march, or when he is detached therefrom for the purpose of attending a course of instruction, or
 - (b) detailed for duty as a staff officer, umpire, judge, target or recording officer, or assistant instructor in gunnery, or for instruction at manœuvres, camps of exercise, Royal Artillery practice camps, scout competitions or assaults at arm.
- (v) Claims for detention allowance under this order should invariably be supported by an extract of the Army, Divisional, Brigade or Staff College order directing the officer to proceed on the detached duty the performance of which forms the basis of his claims.
- (vi) These rules do not cancel or modify those contained in paragraphs 254 to 260, Army Regulations, India, Volume I, which will, until further orders, hold good in so far as they apply to the special conditions they are intended to provide for.

- (i) Detention allowance at the rate of Rs. 5 per diem will be granted to all British regimental officers including officers of the Indian Medical Service when doing duty with Native units, and at the rate of Re. 1 per diem to all Native regimental officers, irrespective of rank, whenever they are detached from their stations on any of the following duties:—
 - (a) Court-martial duty.
 - (b) Duty in connection with Courts of Enquiry, Boards and Committees, whether as a member or as a witness.
 - (c) Duty in connection with examinations in professional subjects including entrance examinations for Staff College and in Native languages, whether as members of boards, superintending officers, examiners, or examinees.

- Note.*—A day for this purpose is counted from midnight to midnight.
- (iii) Detention allowance cannot be drawn for more than a ten days' halt at any one place; but the General Officer Commanding a Division or Independent Brigade may exempt an office

from the operation of this rule in special cases in which he is satisfied that the proposed halt was necessary in the interests of the Service, and that the officer was put to extra expense by his halt after the expiration of the first ten days.

- (iv) Except in the special circumstances referred to under (e) in clause (i), detention allowance is not admissible when an officer is—
 - (a) present or doing duty with his unit, or with a portion thereof, either on detachment, at manœuvres, or on the line of march, or when he is detached therefrom for the purpose of attending a course of instruction, or
 - (b) detailed for duty as a staff officer, umpire, judge, target or recording officer, or assistant instructor in gunnery, or for instruction at manœuvres, camps of exercise, Royal Artillery practice camps, scout competitions or assaults-at-arm.
- (v) Claims for detention allowance under this order should invariably be supported by an extract of the Army, Divisional, Brigade or Staff College order directing the officer to proceed on the detached duty the performance of which forms the basis of his claims.
- (vi) These rules do not cancel or modify those contained in paragraphs 254 to 260, Army Regulations, India, Volume I, which will, until further orders, hold good in so far as they apply to the special conditions they are intended to provide for.

Revised rules and rates for the conveyance of Military Traffic by Railway.—The Government of India have approved of the revised rules and rates for the conveyance of military traffic by rail issued as an annexure to India Army Order No. 625 of 1907, modified in accordance with the amended schedule which accompanies this order, remaining in a tentative state for a further period of one year, with effect from the 1st January 1909; and the following general instructions in connection therewith are published for information. Alterations and additions in the new schedule and in the instructions are denoted by a black line.

1. Application of the rules.—These rules do not apply to journeys performed by officers and others who draw travelling allowances under the provisions of A.R.I., Vol. X, but ~~concern~~ only—

- (a) military traffic booked on warrant or credit note;
- (b) troops and stores for manœuvres despatched on the cash payment system; and
- (c) Imperial service troops when moved at Government expense.

2. Vehicle rate.—(a) The vehicle rate was introduced with a view to simplification of the complex methods formerly in force. The advantages of the existence of such a rate during mobilisation, or in connection with the movement of troops taking part in large concentrations, movements in relief, etc., are obvious. Despatching officers should therefore, whenever possible, despatch troops and their families as well as baggage and all military stores, at the vehicle rate, unless this method of despatch is undesirable on administrative grounds or financially disadvantageous.

in columns 3 and 5 of the Annexure. Reserved accommodation shall be requisitioned for only in cases of absolute necessity. In cases when the number of men to be sent by rail is sufficient to justify one or more vehicles being demanded and paid for at the vehicle rate, there will generally be one or two officers and non-commissioned officers in charge of the party, entitled to higher class accommodation. The latter would be insufficient in number to warrant the engagement of a whole vehicle at the vehicle rate; in such cases despatching officers will issue warrants for their conveyance at the contract rates mentioned above.

Similarly if after filling a given number of coaches there should be a small number of individuals surplus but insufficient to justify an additional vehicle being paid for, these will also be booked on warrant at contract or tariff rates.

7. Large and small consignments of goods, etc.—(a)

Small consignments, or any balance remaining over in the case of consignments despatched in vehicles and charged for at the vehicle rate, shall be sent either by goods train as ordinary packages, or be held over until a sufficient quantity has been collected to justify one or more vehicles being engaged for their conveyance. In the case of consignments sent as ordinary goods, payment will be made irrespective of all classification of goods, at the uniform rate of one-third pie per maund per mile, or the vehicle rate, whichever is cheaper. These rates are inclusive of terminals.

(b) Consignments requiring the use of a whole wagon will be charged at the vehicle rate even though on actual weight the cost at the small consignment rate might be less.

(c) Goods in bulk, bhoosa, forage, hay and similar commodities, and live-stock, shall always be charged at the vehicle rate.

(d) The vehicle rate shall always be charged on consignments booked from or to private military sidings. The small consignment rate will only be charged when consignments are booked at railway goods stations.

(e) Officers responsible for the despatch of stores, etc., by rail will issue such orders as may be considered necessary to ensure, as far as possible, small consignments being invariably booked at railway goods stations.

(f) His Excellency the Commander-in-Chief particularly desires General Officers Commanding Divisions, and Indepen-

dent Brigades, and Heads of Departments to impress upon despatching officers the necessity for proper supervision being exercised over the loading of stores, in cases where whole vehicles are requisitioned, with a view to avoiding unnecessary expenditure being thrown upon the State.

8. Chargers and other animals insufficient in number to fill a truck or horse box.—Under the above conditions special vehicles shall not ordinarily be requisitioned for the conveyance of animals; they will be despatched by ordinary trains on warrant at the rates and under the conditions applicable to public traffic. This rule is only intended to apply, in the case of officers' chargers, when an officer is moving with a body of troops and travelling on warrant.

9. Women and children accompanying, preceding or following troops.—(a) In all troops movements when women and children accompany troops, precede, or follow them, as for instance, when they are proceeding to or from the hills during the hot weather, or to or from the port of embarkation when *en route* to or from home, despatching officers will decide, after taking into consideration the numbers for whom accommodation is required, whether whole vehicles for their conveyance should be engaged at the vehicle rate, or whether they should be despatched on warrant as at present. (See para. 6.)

(b) When special vehicles are requisitioned for such parties the despatching officer will be held responsible that the public carrying capacity of the class of vehicle supplied, is worked up to as far as possible (*but see para. 2 (c)*).

10. Free allowance of baggage.—(a) When special trains are requisitioned for the conveyance of troops, one brake-van will be allowed free for the conveyance of baggage, provided that in all cases the minimum number of vehicles is paid for (*see para. 4*). Any baggage in excess of the quantity which can be loaded in this brake-van will be charged for at the vehicle rate. An uniform scale of 20 seers of baggage will be allowed free by the railway to all individuals travelling under warrant, whether charged for at vehicle, contract or tariff rates; any balance in excess of this quantity will be charged for at the $\frac{1}{3}$ rd pie per maund per mile rate, or at the vehicle mileage rate, whichever is the cheaper, subject to a minimum charge of 4 annas in the former case.

(b) The vehicle mileage rate will *always* be applied when it is less than the cost of carriage calculated at $\frac{1}{3}$ rd pie per maund per mile.

11. Charges for brake-vans, and also for vehicles ordered and subsequently cancelled.—(a) Provided that as already prescribed in paragraph 4, the minimum payment shall in no case be less than the charge for 16 vehicles, the Railway will provide one brake-van free of cost for each special train. Additional brake-vans attached to the train will not be paid for unless actually used for the carriage of military goods.

Example 1.—The military authorities indent for 16 vehicles. The train is made up of 16 vehicles and one brake-van. Government will be charged for 16 vehicles.

Example 2.—The military authorities indent for 15 vehicles. The train is made up of 15 vehicles and one brake-van. Government will be charged for 16 vehicles.

Example 3.—The military authorities indent for 18 vehicles. The train is made up of 18 vehicles and 2 brake-vans, only *one* of which is used for the carriage of military goods. The one brake-van used for the carriage of military goods is assumed to be a free van, and Government will be charged for 18 vehicles only.

Example 4.—The military authorities indent for 15 vehicles and 2 brake-vans. Government will be charged for 16 vehicles whether either or both of the brake-vans are used or not.

NOTE.—These examples should, as regards baggage wagons, be read in conjunction with para 185, A. R. I., Vol. X.

(b) A fixed charge of R5 for each vehicle brought to a station on the application of the military authorities, but not used, will be levied; a charge of R25 will be made for lighting up an engine for use on a troop train which is subsequently cancelled, unless written notice that the train is not required, is received at least six hours before the time arranged for its departure.

12. Special siding and ferry charges.—(a) In the case of traffic booked to or from special sidings or passed over ferries, the following additions shall be made to the mileage for charge:—

Over each siding	:	:	:	:	:	5 miles
" " ferry	:	:	:	:	:	25 "

(b) Goods and baggage transhipped over ferries will be handled by the railway concerned.

13. Terminal charges.—Under the revised rules, the military authorities are entirely responsible for all handling, both loading and unloading of stores, etc., conveyed by rail or wagon loads. In the case of goods traffic booked at and to railway stations at the "small consignment rate" (one-third pie per maund per mile), the handling, loading, and unloading will be done by the railway staff. But in neither case will a terminal charge be levied by the railway.

14. Time allowance for loading and unloading of stores, etc.—(a) In the case of special trains, a free allowance of 6 hours day-light will be given for loading and unloading respectively; any time taken in excess of this allowance will be paid for at the rate of 2 annas per vehicle per hour.

(b) In all other cases, the usual time allowance granted to the public will be given, and the public demurrage charges levied for any time in excess of this period.

(c) The time limit and charges will be based on those contained in the tariff of the railway concerned.

(d) Officers will be held responsible that demurrage charges do not accrue unless the delay in loading or unloading can be justified by exceptional circumstances.

(e) Demurrage charges, if incurred, will also be paid for passenger vehicles when run loaded over foreign lines.

15. Conveyance of "safety cartridges" by rail.—Under the new rules "safety cartridges" will be treated as ordinary military stores.

The expression "safety cartridges" as used above—

(i) means a cartridge for small arms, the case of which can be extracted from the small arm after firing, and is so closed as to prevent any explosion in one cartridge being communicated to other cartridges; and

(ii) includes a rifle-calibre machine gun cartridge, if it is as described in clause (i) whether it is for use with a machine gun having chambers identical with those of rifles or with a machine gun having special chambers.

Provided that the diameter of the cartridge in either, case (i) or case (ii) does not exceed one inch.

16. Extent to which the military rate will apply to goods consigned by a Government official, a private firm, a contractor, or other civilian agent.—The military rate will only apply when goods (including live-

(stock), are consigned to a Government official on account of the Military Department; all goods intended for military purposes *must* be consigned to a Government official on account of the Military Department.

NOTE.—Goods are “intended for military purposes” within the meaning of this rule if on being consigned to a Government official the latter is bound to accept the goods on behalf of the military authorities, subject to any tests, comparison with samples, etc., which according to rule or accepted practice takes place after delivery of the goods. The Government official concerned shall, if desired by the railway authorities, give full information regarding goods consigned to him at contract rates.

17. Military parcel rate.—Ordinary parcel rates will be charged for military parcel traffic booked by passenger trains.

18. Payment for military goods and baggage.—All payments for military goods and baggage shall, so far as practicable, be made by Credit note—I. A. F. T., 1711. Railway Warrant Form I. A. F. T., 1707, will not be used for the booking of goods and baggage except when accompanied by troops. In the case of troop trains the total charges will be paid by Government (Military Accounts Department). The despatching officer will determine, in accordance with existing orders, the proportion to be borne by the corps or individuals concerned, and will be held responsible that the necessary and correct entries are made in the warrant. This rule does not apply in the case of troops and stores for manœuvres, the fares and freight for which are paid in cash.

ROBERT SCALLON, *Major General,*
Adjutant General in India.

For the purpose of calculating the number of ward orderlies to be transferred to the reserve in each group of infantry battalions the reservists of each group should be totalled up, and each battalion send a ward orderly to the reserve in turn. Thus, in a group whose actual reserve strength is 302, 311, and 304 respectively, total 917, each battalion can have a ward orderly in the reserve, but as soon as the combined total reaches 1,000 one of the group may transfer an additional ward orderly to the reserve.
